Battery Standby Life	5 Years	5 Years
Self-Tests	✓	✓
Status Display	✓	✓
Audio and Visual Prompt	✓	✓
Metronome (CPR)	✓	✓
Trainer Available	✓	✓

Don't Miss

Our **FREE** E-learning course and training video!

www.medianadefib.co.uk/e-learning

This course has been designed for people with little knowledge of First Aid, providing information in four bite-size sections that are easy to remember.

PLEASE NOTE: There are slight variations in operating features of the Mediana A15 and A10 Models. Students opting for the e-learning course will benefit greatly regardless of this, but are advised, that instructions in the course apply exclusively to the A15 Model. For the greatest benefit, all students should refer to the operating manual for the A10 Model which clearly explains the slight difference when starting up the A10.
