

BS8599-1 compliant Workplace First Aid Kits in the Aura Box Range

When did the new standard come into force?

The new BS8599-1 compliant kits were effective from 30th June 2011, with a transitional introduction period until 31st December 2011.

The old standard

This standard replaces the BHTA-HSE kits 10, 20 and 50, that are currently universally used in the UK, and are based on the HSE guidelines. The Current BHTA standard was published in 1997, and is long overdue a review. The BHTA standard will be withdrawn from 31st December 2011.

What the law says

The Health and Safety (First Aid) regulations 1981 states:

"An employer shall provide or ensure that there are provided such equipment and facilities as are adequate and appropriate in the circumstances for enabling first aid to be rendered to his employees if they are injured or become ill at work"

The new first aid kits are now the only safe and clear way for employers to meet their obligations.

The Integral Aura box has superior contemporary looks.

A durable polypropylene box with black safety clips, integrated carry handle, and a secure airtight lid that provides protection from dust and water.

British Standard for Workplace First Aid BS8599-1

Employers are required to conduct a risk needs assessment and choose a first aid kit that meets their needs. The British Standard BS8599-1 for Workplace First Aid offers four kit sizes, and guidelines to match the kit to the risks identified in the workplace.

1.
Identify your risk needs:
LOW RISK
(e.g. shops, offices, libraries etc.)
HIGH RISK
(e.g. light engineering and assembly work, food processing, warehousing, extensive work with dangerous machinery or sharp instruments, construction, chemical manufacture etc.)

2.
Decide on the size and quantity of kits required to meet your risk needs assessment:

SMALL KIT USAGE GUIDELINES

LOW RISK Less than 25 employees
HIGH RISK Less than 5 employees

MEDIUM KIT USAGE GUIDELINES

LOW RISK 25-100 employees
HIGH RISK 5-25 employees

LARGE KIT USAGE GUIDELINES

LOW RISK 1 Large Kit per 100 employees
HIGH RISK 1 Large Kit per 25 employees

SMALL KIT

22.5H x 23.5W x 10cmD
CONTENTS

- 1 Burns Dressing
